Portfolio · GitHub · LinkedIn

PROFESSIONAL SUMMARY

Second-year Computer Science student with an 8.2 CGPA and hands-on experience building responsive websites, functional web applications, and AI-powered projects. Skilled in HTML, CSS, JavaScript and modern web technologies, with a strong focus on clean UI, responsive design, and practical problem-solving. Seeking a Web Developer Intern opportunity to contribute to real-world projects while developing professional engineering skills.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python, C++

Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend & Database: Node.js, Express.js, MongoDB, SQL, Supabase

Tools & Other: Git, GitHub, REST APIs, OpenAI API, Canva

SELECTED PROJECTS

Amazon E-Commerce Website Clone

HTML · CSS · JavaScript

- Built a functional e-commerce website inspired by Amazon with a responsive interface and interactive shopping experience.
- Implemented product browsing, navigation, and core front-end interactions using JavaScript.
- Focused on realistic e-commerce UI and responsive behavior across screen sizes.

Myntra E-Commerce Website Clone

HTML · CSS · JavaScript

- Developed a functional fashion e-commerce website inspired by Myntra.
- Implemented interactive product sections, navigation, responsive layouts, and front-end functionality.
- Designed the interface to provide a realistic online shopping experience across desktop and mobile screens.

Saathi AI

JavaScript · Python · OpenAI API · REST APIs · SQL/Supabase · HTML · CSS · Git

- Developed an AI-powered application with an interactive web interface and practical AI-based functionality.
- Integrated AI capabilities through APIs and built a clean, responsive user experience.
- Worked across frontend, backend/API integration, data handling, and version control.

Expense Tracker

HTML · CSS · JavaScript · Python · SQL

- Built an application for recording and organizing income and expenses.
- Implemented dynamic calculations and interactive UI components using JavaScript.
- Designed a simple, responsive interface for practical financial tracking.

To-Do List

HTML · CSS · JavaScript · Database

- Created a task-management application for adding, managing, and completing tasks.
- Implemented dynamic DOM manipulation and user interactions with JavaScript.
- Built a clean and responsive interface for everyday use.

Business Websites — Cafe & Gym

HTML · CSS · JavaScript

- Created responsive websites for Cafe Pink and a Gym as realistic business website projects.
- Focused on modern layouts, visual presentation, responsive design, and clear user navigation.
- Applied web development skills to realistic business use cases.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Galgotias University · 2025 – 2029 · CGPA: 8.2 / 10
